

TECHNICAL DATA SHEET

80012 / 80013 HIGH VISIBILITY TWO-TONE COAT

DESCRIPTION

Blackrock's hardwearing Hi Vis Two Tone Coat features 2 bands and 2 braces of reflective tape to ensure you are seen, with a contrast navy panel that hides dirt, keeping the garment looking better for longer without affecting its high-vis properties. Quilt lined for warmth, it features taped seams together with storm flaps on the main zip, cuffs and pockets, plus a concealed foldaway hood to ensure that you'll stay dry in bad weather. The coat also features multiple cargo and document pockets, giving plenty of storage.

KEY FEATURES

- Contrast navy panel hides dirt
- Quilt lined for warmth
- Concealed hood that unpacks and packs away quickly and easy
- Heavy duty two-way zip with full length storm flap
- Elasticated storm cuffs

STANDARDS

- (Yellow) EN20471 Class 3
- (Orange) EN20471 Class 3 RIS-3279-TOM
- (Yellow & Orange) EN343 3:1

SIZES

S - 6XL

MATERIALS

100% polyester w/
oxford PU coating

WASH CYCLE

5 washes

TAPE

High-Reflective
5cm Poly Tape

TECHNICAL DATA SHEET

CERTIFICATION

ISO 20471:2013 High-Visibility Clothing is an international standard which specifies requirements for high visibility clothing capable of visually signalling the user's presence.

High visibility clothing is grouped into three classes related to risk assessment. The classes are determined by three different minimum areas of retroreflective, fluorescent and/ or combined performance material.

A class three garment offers the highest degree of visibility.

Users should select the required class of performance based on a risk assessment of the location/situation.

Class water penetration = 1-3

Class water vapour resistance = 1-3

Protective clothing certified according to EN 343 protects against precipitation from rain or snow, fog and ground humidity. The garment fabric and seams are tested and classified on a scale of 1 to 3 (where 3 is the maximum) for water resistance, which forms the top number of the rating, and water vapour resistivity (ie. breathability), which forms the bottom number of the rating.
