

TECHNICAL DATA SHEET

80027/80028 HI-VIS TWO-TONE GILET

DESCRIPTION

Blackrock's Hi-Vis Performance Gilet has been engineered to maximise efficiency at work. Designed to battle all the elements, the outer shell features a weather resistant finish and taped outer seams, whilst the quilt lined inner provides essential insulation. Two bands of angled chevrons of reflective tape provide Class 2 protection and also help inform the people around you of which way you are facing, maximising your safety. The bodywarmer also accommodates for printing with a non-edited left-chest. Storage space comes in the form of a right-chested zip pocket, along with two zipped lower pockets covered by storm flaps. An adjustable shock cord hem and full-length zip helps provide a secure fit.

KEY FEATURES

- Weather resistant polyester outer shell
- Padded quilt lined navy inner for additional insulation
- 2 bands of angled chevron tape shows which way you are facing
- Full-length zip and adjustable shock cord hem

STANDARDS

- (Yellow) EN20471 Class 2
- (Orange) EN20471 Class 2 RIS-3279-TOM

SIZES

S - 6XL

MATERIALS

300D Polyester
Oxford PU (Outer)
Polyester taffeta
(Inner)
100% Polyester
(Padding)

WASH CYCLE

25 washes

TAPE

High-Reflective
7cm Poly Tape

TECHNICAL DATA SHEET

CERTIFICATION

ISO 20471:2013 High-Visibility Clothing is an international standard which specifies requirements for high visibility clothing capable of visually signalling the user's presence.

High visibility clothing is grouped into three classes related to risk assessment. The classes are determined by three different minimum areas of retroreflective, fluorescent and/ or combined performance material.

A class three garment offers the highest degree of visibility.

Users should select the required class of performance based on a risk assessment of the location/situation.
