AS320C (Ridgeway): Ridgeway is a waterproof metal-free safety hiker. The upper is made from a rip-stop material with embossed Thermo-plastic Polyurethane (TPU) support. It features a breathable waterproof membrane and mesh inner lining. It has a fibre glass composite toe cap with 200 joules impact resistance. It comes with a removable moulded polyurethane (PU) footbed. The non-metallic midsole offers anti-penetration to min. IIOON. The Ethylene-Vinyl Acetate (EVA)/Rubber outsole is highly durable and features an excellent grip cleated rubber outsole for slip resistance. The boot features a smart and speedy fastening lacing system.

Care Advice: To enhance the life & performance of the footwear, upper should be kept clean & dry. Dry/damp cloth or shoe polish/spray to be used as per the need. Sole to be checked and clean regularly to maintain its traction. Any obvious damage in footwear may reduce full protection and must be replaced.
