## CF47 YUKON WATERPROOF COMPOSITE BOOT

PADDED COLLAR

WATERPROOF  
LEATHER UPPER

PROTECTIVE  
METAL-FREE MIDSOLE

YKK SIDE ZIP

PROTECTIVE  
METAL-FREE TOE CAP

HEAVY DUTY  
SCUFF CAP

300°C HEAT  
RESISTANT SOLE

### DESCRIPTION

The Yukon boot features a waterproof membrane carefully sewn into the upper to keep feet dry and a YKK side zip for easy putting on and removal. It has both toe cap and midsole protection made from lightweight, metal-free composite material, plus a heavy-duty bump cap for added durability. The ultra-hardwearing PU/rubber, HRO rated, anti-slip sole is heat resistant up to 300°C making it ideal for demanding environments.

### SIZES

UK 3-14

### STANDARDS

EN20345:2022  
S7S SC HRO  
FO SR

### KEY FEATURES

- Waterproof leather upper
- Metal-free toe cap and midsole
- Heavy duty bump cap for added durability
- 300°C heat resistant, anti-slip, anti-static and fuel oil resistant PU/rubber sole
- Energy absorbing heel reduces foot fatigue

### FEATURE ICONS

200 JOULE

- Utilities

## CERTIFICATION/MARKINGS

EN ISO 20345:2022 is an internationally recognised standard which specifies requirements for safety footwear. Any product which references an EN standard must have the relevant certification attributed to the product code found on the product.

The product standard can be found on the tongue label and should match that stated on the certification. The standard is usually a group of numbers and letters, for example S7L FO SR. These letters and numbers denote the characteristics that make up the footwear you are buying which include properties such as protective toe cap, water-resistant uppers, protective midsole, fuel oil resistance, anti-static, heat resistance and slip resistance.

Users are advised to select the required class of performance based on the risk assessment of the location and/or task as appropriate.
