Contrast Fabric: 100% Polyester,
Bird Eye Knit g

Product information

These unisex cooling sleeves offer protection from heat and sun while engaging in physical activity, delivering an instant cooling effect to the skin.

Cooling Accessories

Portwest evaporative cooling products are constructed from an innovative PVA multi layered fabric which uses a unique polymer chemistry. Simply activate by soaking in water creating a chemical reaction within the fabric which enables the garments to act like a sponge; retaining water, keeping the body cool in hot weather conditions.

Cooling Range

This innovative range offers a comprehensive selection of products to help minimise the risk of heat stress and UV rays. Outdoor workers in construction, agriculture, mining, oil and gas and other industries frequently find themselves working in temperatures up to and over 40°C/100°F. This Cooling range is ideal for use in these conditions.

Features

- Lightweight and comfortable
- 4-way stretch fabric for ease of movement and added comfort
- Can be worn wet or dry
- Keeps wearer cool for up to 8 hours
- Wicking, cooling and drying capabilities
- Soak in water to activate
