Collection: Cooling Vests

Range: Cooling Range

Shell Fabric: 100% Polyester 140g

Contrast Fabric: 100% Polyester, Bird Eye Knit g

Filling Fabric: Super Absorbent Fibres 160g

Product information

Constructed with super absorbent fibres, this cooling vest is designed to keep workers cool for hours. Lightweight and easy to activate, the Cooling Evaporative Vest will keep the wearer cool without wetting the clothes underneath.

Standards

EN 17353 Type A

Cooling Vests

Portwest evaporative cooling products are constructed from Cooling 360° Fabric Technology which uses a unique polymer chemistry. Simply activate by soaking in water creating a chemical reaction within the fabric which enables the garments to act like a sponge; retaining water, keeping the body cool in hot weather conditions.

Cooling Range

This innovative range offers a comprehensive selection of products to help minimise the risk of heat stress and UV rays. Outdoor workers in construction, agriculture, mining, oil and gas and other industries frequently find themselves working in temperatures up to and over 40°C/100°F. This Cooling range is ideal for use in these conditions.

Features

- Lightweight and comfortable
- Cooling mesh fabric for increased breathability
- Keeps wearer cool for up to 8 hours
- Wicking, cooling and drying capabilities
- Soak in water to activate
- CE certified
