

## GL642 Clear Vinyl Powdered™

The GL642 Clear Vinyl Powdered™ is a powdered vinyl disposable glove offering protection against contamination, dirt and potential irritants in low risk situations. The high quality vinyl used to manufacture the GL642 contains none of the proteins that are present in natural rubber, eliminating protein sensitisation. Lightly powdered, it eases donning and absorbs perspiration. A cost-effective choice when gloves need to be frequently changed, it has a smooth finish and a high tensile strength providing a reliable barrier against contamination or infection. The beaded cuff further enhances strength and prevents liquid roll back. The GL642 Clear Vinyl Powdered™ has an AQL rating of 1.5 and has been tested in accordance with EN1186 making it suitable for food contact.
