

KP30 - Super Gel Knee Pad

Collection: Kneepads

Range: Knee Pads

Materials: PVC Shell, Nylon, EVA Foam, Neoprene

Outer Carton: 36

Product information

A strong outer shell protects your knee from sharp objects while an inner silicone gel cushion acts as a shock absorber for your joints. The outer shell also features a traction based design to allow the user to move with confidence on their knees while working. Elasticated high quality straps focus on holding the knee pad in place while not being overly restrictive.

Kneepads

Portwest knee pads offer a range of knee protection to suit every situation, type 1 (strap on knee pads), type 2 (insert knee pads) and type 3 (kneeling pads). All Portwest knee pads use premium high density material to give the user the best protection possible for their knees no matter the hazard. Diverse materials such as EVA foam, neoprene rubber and silicone gel inserts are used to ensure maximum wearer comfort. Ergonomics is a key feature in our knee pads design and is backed up in the positive feedback we receive from our wearer trials.
