Outer Carton: 20

Product information

New helmet mounted hearing protection from our premium colour coded ear defenders family HV Extreme now available with plastic arms and therefore suitable where non-conductive PPE is needed. To be used in combination with Portwest Endurance and Height Endurance helmets. Easy to attach to the helmets the ear defenders offer a secure and comfortable fit and superior protection against harmful noise when lower attenuation performance is required to avoid over protection. Colour coded cups assist for easy identification of the correct attenuation level.

Ear Muffs

Portwest Hearing protection range includes PPE with different level sound attenuation, to be adapted to various working environments giving the correct protection from dangerous noise, without isolating the workers. New models and colours for earmuffs allow a personalised choice. An updated range of earplugs complete our competitive and performing offer.

Hearing Protection

Hearing problems occur when you are exposed to hazardous working conditions without wearing the correct protective equipment.

Standards

EN 352-3 (SNR 23dB)
